

First, I'd like to thank all of the new members that joined us last night.

### **912 Group**

We agreed that there doesn't appear to be a downside to becoming a member of the 912 "We Surround Them" network. We will be the Wadsworth 912 Group / American Voices for Freedom. Please let me know over the next day or two if you disagree with this course of action.

### **March on Washington D.C.Action**

We discussed how to promote the national rally that is taking place in Washington D.C. on September 12<sup>th</sup>. I have attached a flier about a bus charter from our area to D.C.

- 1) Print copies of the attached flier and ask local merchants to either post them or hand them to their customers. **If you are comfortable doing this, please contact as many local merchants as possible.**
- 2) Talk with local conservative community groups (AMVETS, VFW, ...) and explain the rally. **We are looking for volunteers to speak to these groups.**
- 3) Call in to the conservative talk shows to make the listeners aware of the rally. **I plan to do this, but if others also call in it will only reinforce the message.**
- 4) Talk with local churches to see if they would be willing to post a flier.
- 5) I will also contact Chris Long (President of the Ohio Christian Alliance) to see if he is willing to email this to his very large distribution list.

### **Television Commercials and Shows**

- 1) Our first commercial against global warming began airing yesterday on Wadsnet television in the local spots on USA, TNT, ESPN and CNN networks. Wadsnet donated 100 spots randomly spaced on these four networks over the next four days. If you have Wadsnet service and see the commercial, please let us know.
- 2) We need your creative ideas on future 60-second spots that we can air. Possible topics could be nationalized healthcare, irresponsible spending, etc. **Please email or call me with your ideas.**
- 3) We plan to produce 30-minute segments to air on local access cable television. We hope that we can spread this idea nationally, mailing free DVDs of our shows (and our commercials) to other conservatives that have local access stations in their community. The first show will probably be a videotaped lecture by Dr. Bob Carter, scientifically disproving man-made global warming. The next one will probably be a show with Brad Sussman (also about global warming). We need some creative ideas for these shows. We discussed videotaping teenagers or young adults discussing topical subjects. Another idea was to videotape people talking about how this recession has hurt them personally or possibly videotape people that have come from another country to seek higher quality medical care. **Again, email or call me with any ideas that you think would work in a 30-minute show.**
- 4) One potential problem is funding. We are not sure how to handle costs of airing commercials (not every television service will donate their commercial spots) and other extraneous costs. Whether to become a 501c3 or c4 was discussed, but clearly we need some expert guidance on how to avoid pitfalls if money is

collected for these costs. We are looking for a knowledgeable attorney and/or accountant that would be willing to offer their advice. **Please let me know if you know of anyone.**

The next meeting will be the first Thursday of July, July 2<sup>nd</sup> at 7:00 p.m. in Steiner Youth Center.
